Place dice in your own 3x3 grid. Match values in a column to multiply that column score.
When you place a die, remove matching-value dice from your opponent's same column.

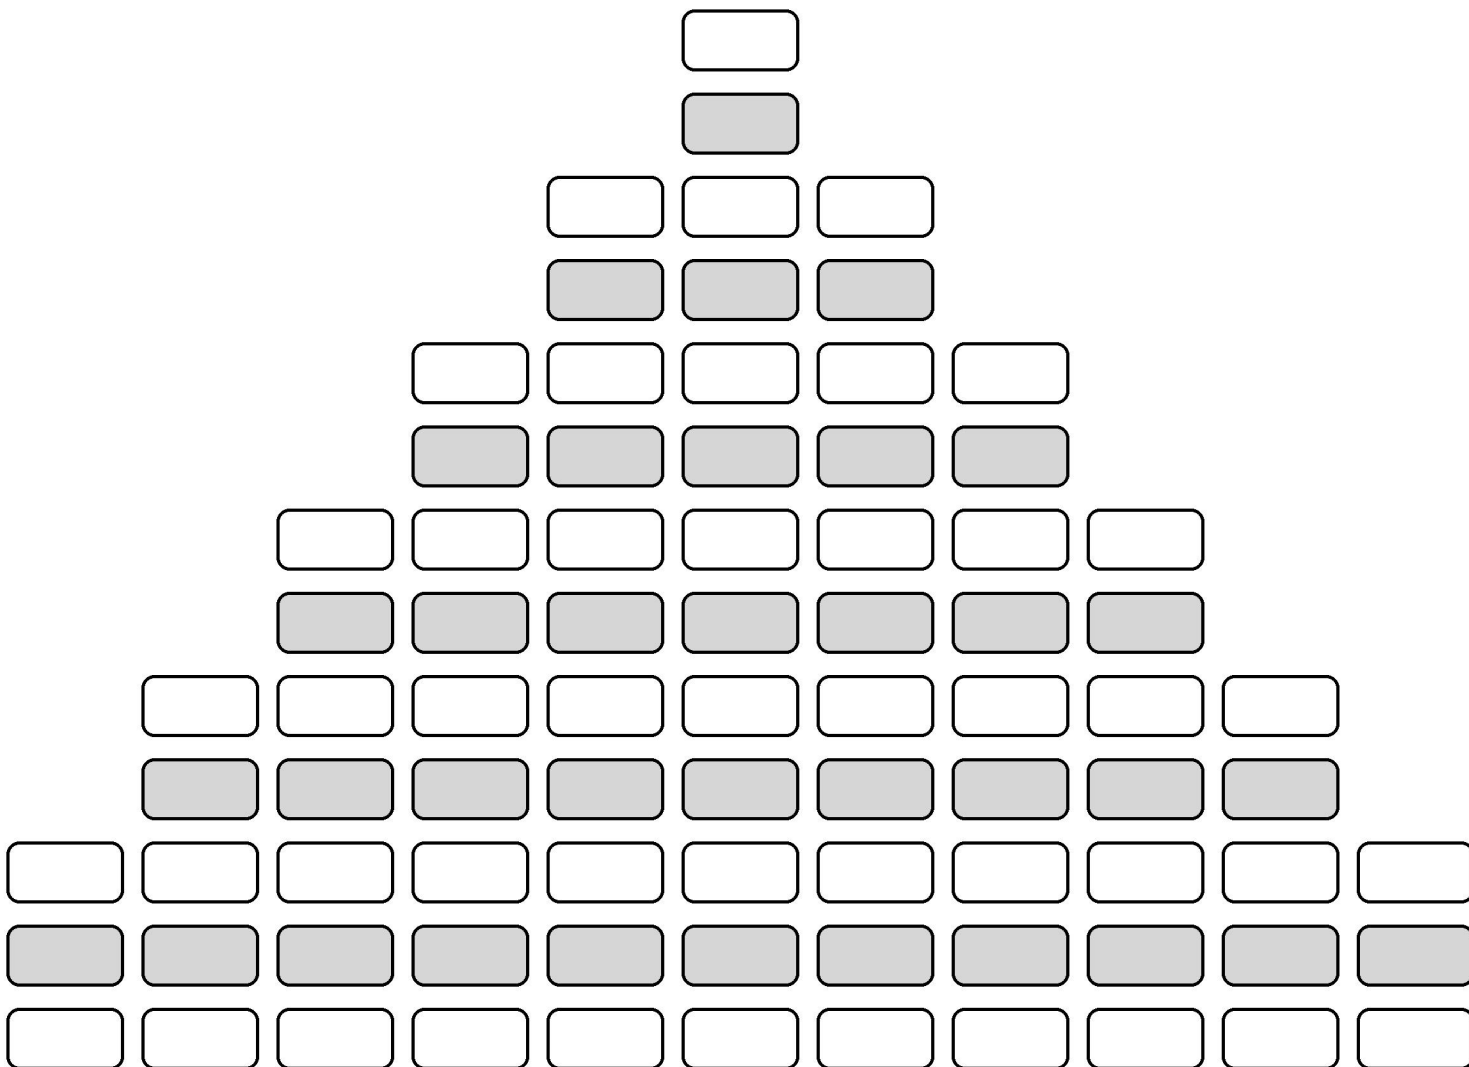

Can't Stop

Number tracks 2 through 12

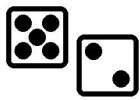

2 3 4 5 6 7 8 9 10 11 12

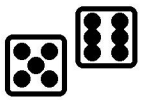

Use tokens/coins as climbers. Longer tracks in the middle reflect the classic odds curve.

On your turn, roll 4 dice, make two pairs, and advance those tracks; stop safely or risk losing progress.

Shut the Box

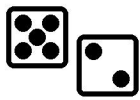

Printable 1-12 board

1	2	3	4	5	6	7	8	9	10	11	12
flip	flip	flip	flip	flip	flip	flip	flip	flip	flip	flip	flip

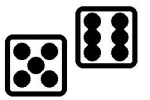

Use this as a paper/dry-erase board. Cross off or cover numbers as they are shut.

Common setup: use 1-9 for shorter games or 1-12 for the full board.
